Summary

Computer Engineering graduate moving into UI/UX design, with a front-end foundation in HTML, CSS, and JavaScript and introductory experience in Figma and graphic design. Academic projects, workshops, and organizational work have shaped my interest in clean, intuitive, responsive interfaces. Seeking a UI/UX internship to learn from experienced designers and contribute to real products.

Education

Pokhara University	Pokhara, Nepal
Bachelor's in Computer Engineering	CGPA: 3.30/4.0

Technical & Design Skills

- **UI/UX & Design** Figma (Basic), Basic wireframing, Basic Prototyping, Basic User Flows, Design Thinking (Basic)
- **Front-End Development:** HTML, CSS, JavaScript (Basic), React JS (Basic), Responsive Web Design (Basic)
- **3D & Other Tools:** Blender (Basic), Git & GitHub (Basic), VS Code, Microsoft Office / Google Workspace
- **Soft Skills:** Communication, Team Collaboration, Creativity, Problem Solving, Adaptability, Time Management, Willingness to Learn

Academic & Web Projects

GoalGrid — Goal and Task Management	Next.js, TypeScript, Tailwind CSS, PostgreSQL, Drizzle ORM
◦ Developed a web-based application for managing goals, tasks, reminders, and personal activities ◦ Worked on structured interfaces for goal tracking and task management ◦ Implemented features such as task organization, progress tracking, reminders, notes, and bucket-list management ◦ Focused on creating a clear navigation structure and an easy-to-use experience	
Fabrica — Fabric & Virtual Try-On Platform	HTML, CSS, JavaScript, React / Web Technologies
◦ Contributed to the development of a web platform focused on fabrics and digital shopping experiences ◦ Worked with features related to fabric presentation, virtual try-on, customer interaction, and recommendations ◦ Gained experience understanding user requirements and translating them into web-based features ◦ Explored ways technology can create more engaging and personalized user experiences	
EcoMart — Bamboo Products E-Commerce Website	HTML, CSS, JavaScript
◦ Developed an e-commerce website for showcasing and selling bamboo-based products ◦ Created product-focused layouts, navigation, and interactive elements ◦ Applied HTML, CSS, and JavaScript to build a responsive and organized website ◦ Gained practical experience designing interfaces around product discovery and user interaction	

Workshops, Courses & Training

- **XDezo** — Online course in HTML, CSS, JavaScript, and front-end web development
- **Web Development, Front-End & React JS Workshops** by CSIT Association of Nepal (CSITAN) — website structure, styling, interactivity, and component-based development
- **Graphic Designing Workshop** by Rotaract Club of Pokhara University — visual design principles and digital communication
- **Introduction to Git & GitHub 2024** — by Rotaract Club of Pokhara; version control, repositories, and collaboration workflows
- **WordCamp 2025 participant:** — WordPress, web technologies, and industry practices

Leadership & Organizational Involvement

Executive Member — IT Team	Rotaract	Rota Year 2024/2025
◦ Contributed to technology-related activities, digital initiatives, and organizational events ◦ Collaborated with team members in planning and supporting technical activities		
Executive Member	STEM Sisters, Pokhara University	2024 - Present
◦ Contribute to STEM-related activities, collaborative initiatives, and technology-focused programs ◦ Work with fellow members to support activities that encourage students to explore STEM and technology		

Interests

UI/UX Design, Web & Interface Design, Product Design, Front-End Development, Graphic & Visual Design, Technology & Digital Products, Learning New Design Tools
